

SYMMONS® Naru™
the smart choice™

Derived from a hybrid of Eastern influence and modern technology, comes the contemporary design of Symmons Naru™. With its clean and fresh individuality, this original Symmons tub and shower system is bold and simple. Every Symmons Naru™ tub and shower system features the legendary Symmons Temptrol® Pressure-Balancing mixing valve. Constructed of solid brass, bronze and stainless steel, and featuring a piston that adjusts automatically to instantly and continually equalize or “balance” the hot and cold water pressure as demands are made elsewhere in the plumbing system. Symmons Temptrol® puts an end to “Shower Shock” and provides a safe, comfortable shower every time.

Symmons Naru™
is available in
these finishes:

Tub and Shower Systems

S-4101

Symmons Naru™ shower system with lever handle and secondary **integral volume control** handle. Symmons Temptrol® Pressure-Balancing mixing valve. Three mode showerhead with arm and flange.
