

**New PelletVent® Pro Tee**

Effective April 2, 2018, DuraVent will offer a newly redesigned PelletVent Pro Clean Out Tee. This new tee features a spring button design that enables an easier twist removal of the clean out cap and a new, lower profile that makes it easier to clean and maintain your pellet stove. With this new design, a new part number and UPC are needed. We apologize for any inconvenience this may cause but do recognize the benefits the redesigned product provides. The new part numbers are similar to what you're accustomed to but will have a number 1 added to the end. For example 3PVP-T is now 3PVP-T1.

We will no longer offer the old style Tee, and there will be no price change. Please refer to the table below for the new associated part number.
