Shown: Contempora B704850 surface mount

With its striking, heavy stainless steel frame, the Contempora slider cabinet adds a bold sense of style to the modern or traditional bathroom. Two doors slide to reveal half of the cabinet, and sturdy metal shelves provide stable storage. Choose from a surface mounted cabinet with fixed shelves, or a recessed cabinet with adjustable shelves. Just imagine how it would complement similarly framed prints and chrome bath fixtures.

Theft-Proof Mirror

Shown: Theft-Proof Mirror 178P24CH

For school, public and commercial business restrooms, NuTone's Theft-Proof mirror makes good economic sense. Its keyhole mounting system locks the mirror to the wall, so it can't be accidentally bumped or physically removed—at least not without a lot of effort. Chrome framing protects mirror edges from accidental contact. There is no cabinet with the theft-proof mirror.

Shown: Theft-Proof Mirror mounting feature.
