

Nio is currently available in Chrome, Spot Resist™ Stainless and Matte Black finishes; it will be available in Moen's new Black Stainless finish in Q3, 2019. Each faucet comes assembled with a handle in its respective finish, and also includes an alternate handle in a secondary finish option so users can simply replace and enjoy an elevated design. The Chrome and Spot Resist Stainless faucets feature an extra Matte Black handle, while Matte Black faucets are paired with a beautiful Brushed Gold finish and Black Stainless faucets include a complementary handle in Moen's Spot Resist Stainless finish.

Much of Nio's appeal stems from its tall stature that is perfectly balanced with a soft modern style so consumers can make a statement at the sink. In addition to the custom handle feature, one of Nio's most distinctive elements is the innovative, integrated pulldown spray wand which nests neatly inside the spout. The concealed design enables users to enhance their experiences with water through great style and innovation as it provides additional functionality without disrupting the sleek appearance. The collection also features a non-pulldown bar/prep faucet for a coordinated look throughout the kitchen.

NIO INCLUDES SEVERAL NOTABLE MOEN® INNOVATIONS:

Power Clean™ Spray Technology

Power Clean™ technology cleans 50 percent faster than most Moen pulldown and pullout faucets without the Power Clean technology, while containing splash and minimizing mess. Greater force means faster clean-up with less water used.

Reflex® System

Pullout and pulldown kitchen faucets with the Reflex® system offer a self-retracting spray wand designed to put itself away, while also providing smooth operation, easy maneuverability and secure docking.

Spot Resist™ Finish

Moen's exclusive Spot Resist™ finish resists fingerprints and water spots to maintain the brilliance of the fixture.

1255® Duralast® Cartridge

Single-handle faucets feature this unique ceramic-disc design that provides the smooth feel and reliable operation of a new faucet from the first time you use it to the last.

Duralock® Quick Connect System

The intuitive Duralock® Quick Connect System uses a proprietary, push-button connector that makes installing faucets quick, secure and hassle-free – no tools required. A telltale “click” audibly signals a secure connection.

All products feature Moen’s lifetime limited warranty* to ensure superior quality.
