

NATURALLY SOFT WATER FROM THE POWER OF CITRUS

REPLACEMENT CARTRIDGES

SUPERIOR SOFT WATER SOLUTIONS FOR EVERY HOME

In 2009, NuvoH2O revolutionized the water softening market with its salt-free, eco-friendly water softening systems. Leveraging over 25 years of commercial experience, NuvoH2O uses CitraCharge to soften water in two ways: binding with the hard minerals in the water, thus rendering them incapable of forming scale, and reducing pH.

Will I get the same softening benefits as other water softening systems?

Yes, studies show that NuvoH2O systems are effective at keeping scale from building up in your piping, appliances, and showers. You'll be able to rest easy knowing your home is protected and you are not wasting water or electricity.

Will this treat iron?

NuvoH2O does offer a solution for a moderate Iron problem (<3 ppm). However, not every NuvoH2O system is an effective means of iron filtration.

Will the NuvoH2O system work with well water?

Our primary softening systems were developed specifically for municipal water systems (30 grains of hardness or less). However, when pairing our systems with the applicable filters, NuvoH2O systems soften well water.

When do I change out the cartridge?

Each system's cartridge has a lifespan based on water usage ranging from 500 - 50,000 gallons of water. See the chart on the back of the brochure for details.

How do I know the system is working?

The easiest way to tell if your system is working is by observing your faucets and water-based appliances. The system not only prevents, but also removes preexisting scale. Initially, you'll see the system at work 90 days after installation.

All NuvoH2O cartridges come fully equipped with our proprietary, all-natural citric compound, which begins to dissolve upon contact with water. To keep your NuvoH2O system performing optimally, we recommend you replace the cartridge according to the specific system and your home's indoor water use. See the chart below for details.

SYSTEM	ITEM #	CARTRIDGE LIFESPAN
A HOME	HHP-2516	20,000 GALLONS
B MANOR	MHP-42516	50,000 GALLONS
C MANOR + TASTE	NCHP-42516	50,000 GALLONS
D MANOR + IRON	DCB-42516	50,000 GALLONS
E HEATER CLEANER	HTR12-2	25,000 GALLONS
F DISHWASHER SYSTEM	DSWR C1	500 GALLONS
G DISHWASHER SYSTEM [2 PK]	DSWR C2	500 GALLONS

THE INNOVATIVE LINE
 OF NUVOH2O PRODUCTS

TINY FOOTPRINT | BIG PERFORMANCE

THE ONLY WHOLE-HOME SYSTEMS THAT PREVENT AND REMOVE SCALE BUILDUP.

EFFECTIVE POINT-OF-USE PRODUCTS

These innovative, point-of-use products support specific home appliances from the damaging effects of hard water.

Manor Duo Water Softener + Taste System

1,500+ sq. ft. homes

- Catalog #DPNCB
- Size: 15.26" x 26"
 - Weight: 28 lbs
 - Water flow: 12-15 (GPM)
 - Maximum PSI: 100 PSI
 - Built-in bypass: No
 - Cartridge lifespan: 50,000 gallons

Manor Water Softener

1,500+ sq. ft. homes

- Catalog #DPMB
- Size: 7.43" x 26"
 - Weight: 14.4 lbs.
 - Water flow: 15-18 (GPM)
 - Maximum PSI: 100 PSI
 - Built-in bypass: Yes
 - Cartridge lifespan: 50,000 gallons

Water Heater System

Catalog #DPHC

This system eliminates the buildup of scale in tankless and non-tankless water heaters due to hard water. When scale forms, it takes longer to heat the home's water and can even deteriorate tankless water heaters.

- Size: 4" x 12.5"
- Weight: 2 lbs.
- Water flow: 10 (GPM)
- Maximum PSI: 100
- Built-in bypass: No

Manor Duo Water Softener + Iron System

1,500+ sq. ft. homes

- Catalog #NSSI
- Size: 15.26" x 26"
 - Weight: 28 lbs
 - Water flow: 12-15 (GPM)
 - Maximum PSI: 100 PSI
 - Built-in bypass: No
 - Water iron level: < 3 PPM
 - Softener Cartridge lifespan: 50,000 gallons
 - Iron Filter lifespan: Approx. 40,000 gallons

Home Water Softener

Up to 1,500 sq. ft. homes

- Catalog #DPHB
- Size: 5.67" x 24"
 - Weight: 5.8 lbs.
 - Water flow: 12-15 (GPM)
 - Maximum PSI: 100 PSI
 - Built-in bypass: No
 - Cartridge lifespan: 20,000 gallons

Dishwasher System

Catalog #DSWR

This system removes hard water stains and scaling in dishwashers. It provides spot-free dishes and protects the internal parts of the dishwasher for years.

- Size: 4" x 12.5"
- Weight: 2 lbs.
- Water flow: n/a
- Maximum PSI: 100
- Built-in bypass: No
- Capacity: 500 gallons

85% OF HOMES IN AMERICA HAVE HARD WATER.
