

P100 Half-Mask Respirator, M/L

The Klein Tools P100 Half-Mask respirator offers protection without compromising comfort and wearability. When paired with the replaceable P100 filters, this respirator is approved in accordance with NIOSH to provide protection against all particulate aerosols including solid and liquid particles such as dust, fumes, and oil mist. The lightweight and compact profile minimizes interference with safety glasses for maximum visibility on the jobsite. Designed with a simple, push-in fit check mechanism for quick and easy face seal validation. In addition, to a built-in sample port for non-destructive face fit testing. Replaceable P100 filters are low-profile and easy to change as needed.

Specifications

Type:	P100 Half-Mask Respirator	Application:	P100 Particulate Filter Effective Against all Particulate Aerosols
Special Features:	Low-Profile Design, Push-in Fit Check Mechanism, Built in Sample Port	Disposable/Reusable:	Reusable
